Connaissances préalables recommandées

Minimum entry level B1/B2.1

Objectifs

At the end of the semester, students will be able to:

- understand and take notes on key points in authentic oral English texts with speakers who have a range of different accents
- read, understand and summarise texts on the core themes
- plan, structure and write business formal texts, including using a range of linking words
- prepare a debate on one of the core themes in the module
- use the third conditional correctly
- use modal verbs for suggestions/advice and to express obligation/lack of obligation correctly
- use a specified range of verb and preposition combinations correctly
- assess their own strengths and weaknesses in English and set further learning goals

Topics: Mergers and Acquisitions, Ethics and Corporate Social Responsibility

In the final module, all students should reach B2. In addition to group work, students will focus on preparing a debate in groups on a subject of their choice relating to one of the main topics. Accuracy and structure are increasingly important in this module, including the use of a range of linking words for both speaking and writing. In writing, the focus is on summarising information from a variety of authentic sources and media, and synthesising the information in report form. Students should now be able to understand a wider range of spoken English with different accents. Reading comprehension is also based on more complex texts from a range of sources. Vocabulary extension relates to the core themes and grammar includes more complex forms.
